

“Pay Your Price”

Created: 27/02/2014

Updated: 10/04/2015

Description:

Pay Your Price is a Woocommerce Extension Plugin using which users can pay their own price for the products. You can force users to pay within a range by giving a Minimum and Maximum Price. You can even give the users complete freedom to pay their own Price by not enforcing a Minimum and Maximum Price. Both Minimum and Maximum Prices are optional. Using this Plugin you can do Split testing to see what the users are willing to pay for your products, accept donations etc. Plugin works on Simple Product, Simple Subscription and Variable Product.

Features:

- You can force users to pay within a range by giving a Minimum and Maximum Price. You can set Recommended Price as guidance.
- Accept Donations using Pay Your Price by setting your price as Minimum Price and the Donation + Minimum Price as Recommended Price.
- Working on Simple Product, Simple Subscription and Variable Product.
- Customization Options for Label as well as Error Messages.
- Simple and Easy to Use.

How To Install:

There are two ways to install the Plugin. One is the Automatic Installation and another is the Manual Installation.

Automatic Installation:

- Unzip the “payyourprice.zip” you will find document folder and “pyp.zip”. The document folder contains the documentation for your reference. And “pyp.zip” is the actual plugin.
- Automatic Installation is the easiest option as WordPress handles the file transfers and you don’t even have to leave your web browser. To do an automatic install of Smart Content Protector, log in to your WordPress admin panel and go to: Plugins -> Add New.
- In the **“Upload”** field browse Plugin zip folder “pyp.zip” and click upload. You can install it by simply clicking Install Now. After clicking that link you will be asked to

Activate Plugin or Return to Plugins Page. Click Activate Plugin and the installation will automatically complete.

Manual Installation:

- Unzip the “payyourprice.zip” you will find document folder and “pyp .zip”. The document folder contains the documentation for your reference. And “pyp .zip” is the actual plugin.
- Using an FTP program or your hosting control panel, upload the unzipped Plugin folder to your WordPress installation’s wp-content/plugins directory.
- The Plugin works once you click “**Activate**”.
- Go to **Woocommerce -> Settings -> Pay Your Price Tab**

Settings Page:
